

REMARKS

Claims 127-195 are pending.

A non-final Office Action was mailed on March 12, 2003; a fully responsive Amendment was filed on August 8, 2003; and a Notice of Allowability was placed in the file on September 3, 2003.

The Notice of Allowability does not appear to have been mailed, due to the apparent misplacement of the file. Applicant therefore filed a Supplemental Information Disclosure Statement on April 19, 2004, citing additional information and authorizing the required fee to be paid. This filing was timely as the Notice of Allowance had not yet been mailed.

Applicant now amends all of the independent claims to add the clarification:

wherein the switch network is further operable to cause charge to be transferred from the capacitive storage subsystem to the capacitive load and is still further operable to cause charge to be transferred from the capacitive load to the capacitive storage subsystem.

The amendment retains all of the limitations that were in each claim when the Examiner found them to be allowable over the art that was then of record.

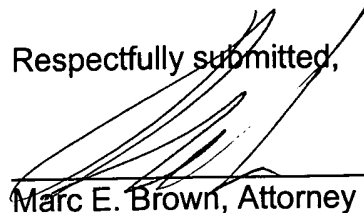

For the foregoing reasons, it is respectfully submitted that this case is now in condition for allowance and early notice of the same is earnestly requested.

The Commissioner is authorized to charge Deposit Account No. 501946 for

payment of any additional fees required by this response or to credit any overpayment to the account, and reference attorney docket no. 61450-027-6806.. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

July 16, 2004

Marc E. Brown, Attorney for Applicants
